FAST FACTS

**Mine-ready Rivian R1T,
more than just an EV**

At 14.3" / 363 mm, Rivian has one of the **highest ground clearances** for a light vehicle to tackle harsh terrain, rock strikes and water.

1

MEVCO

The Rivian has a **lockable gear tunnel** ideal for tool storage and includes a shelving system that is powered, lit and waterproof.

2

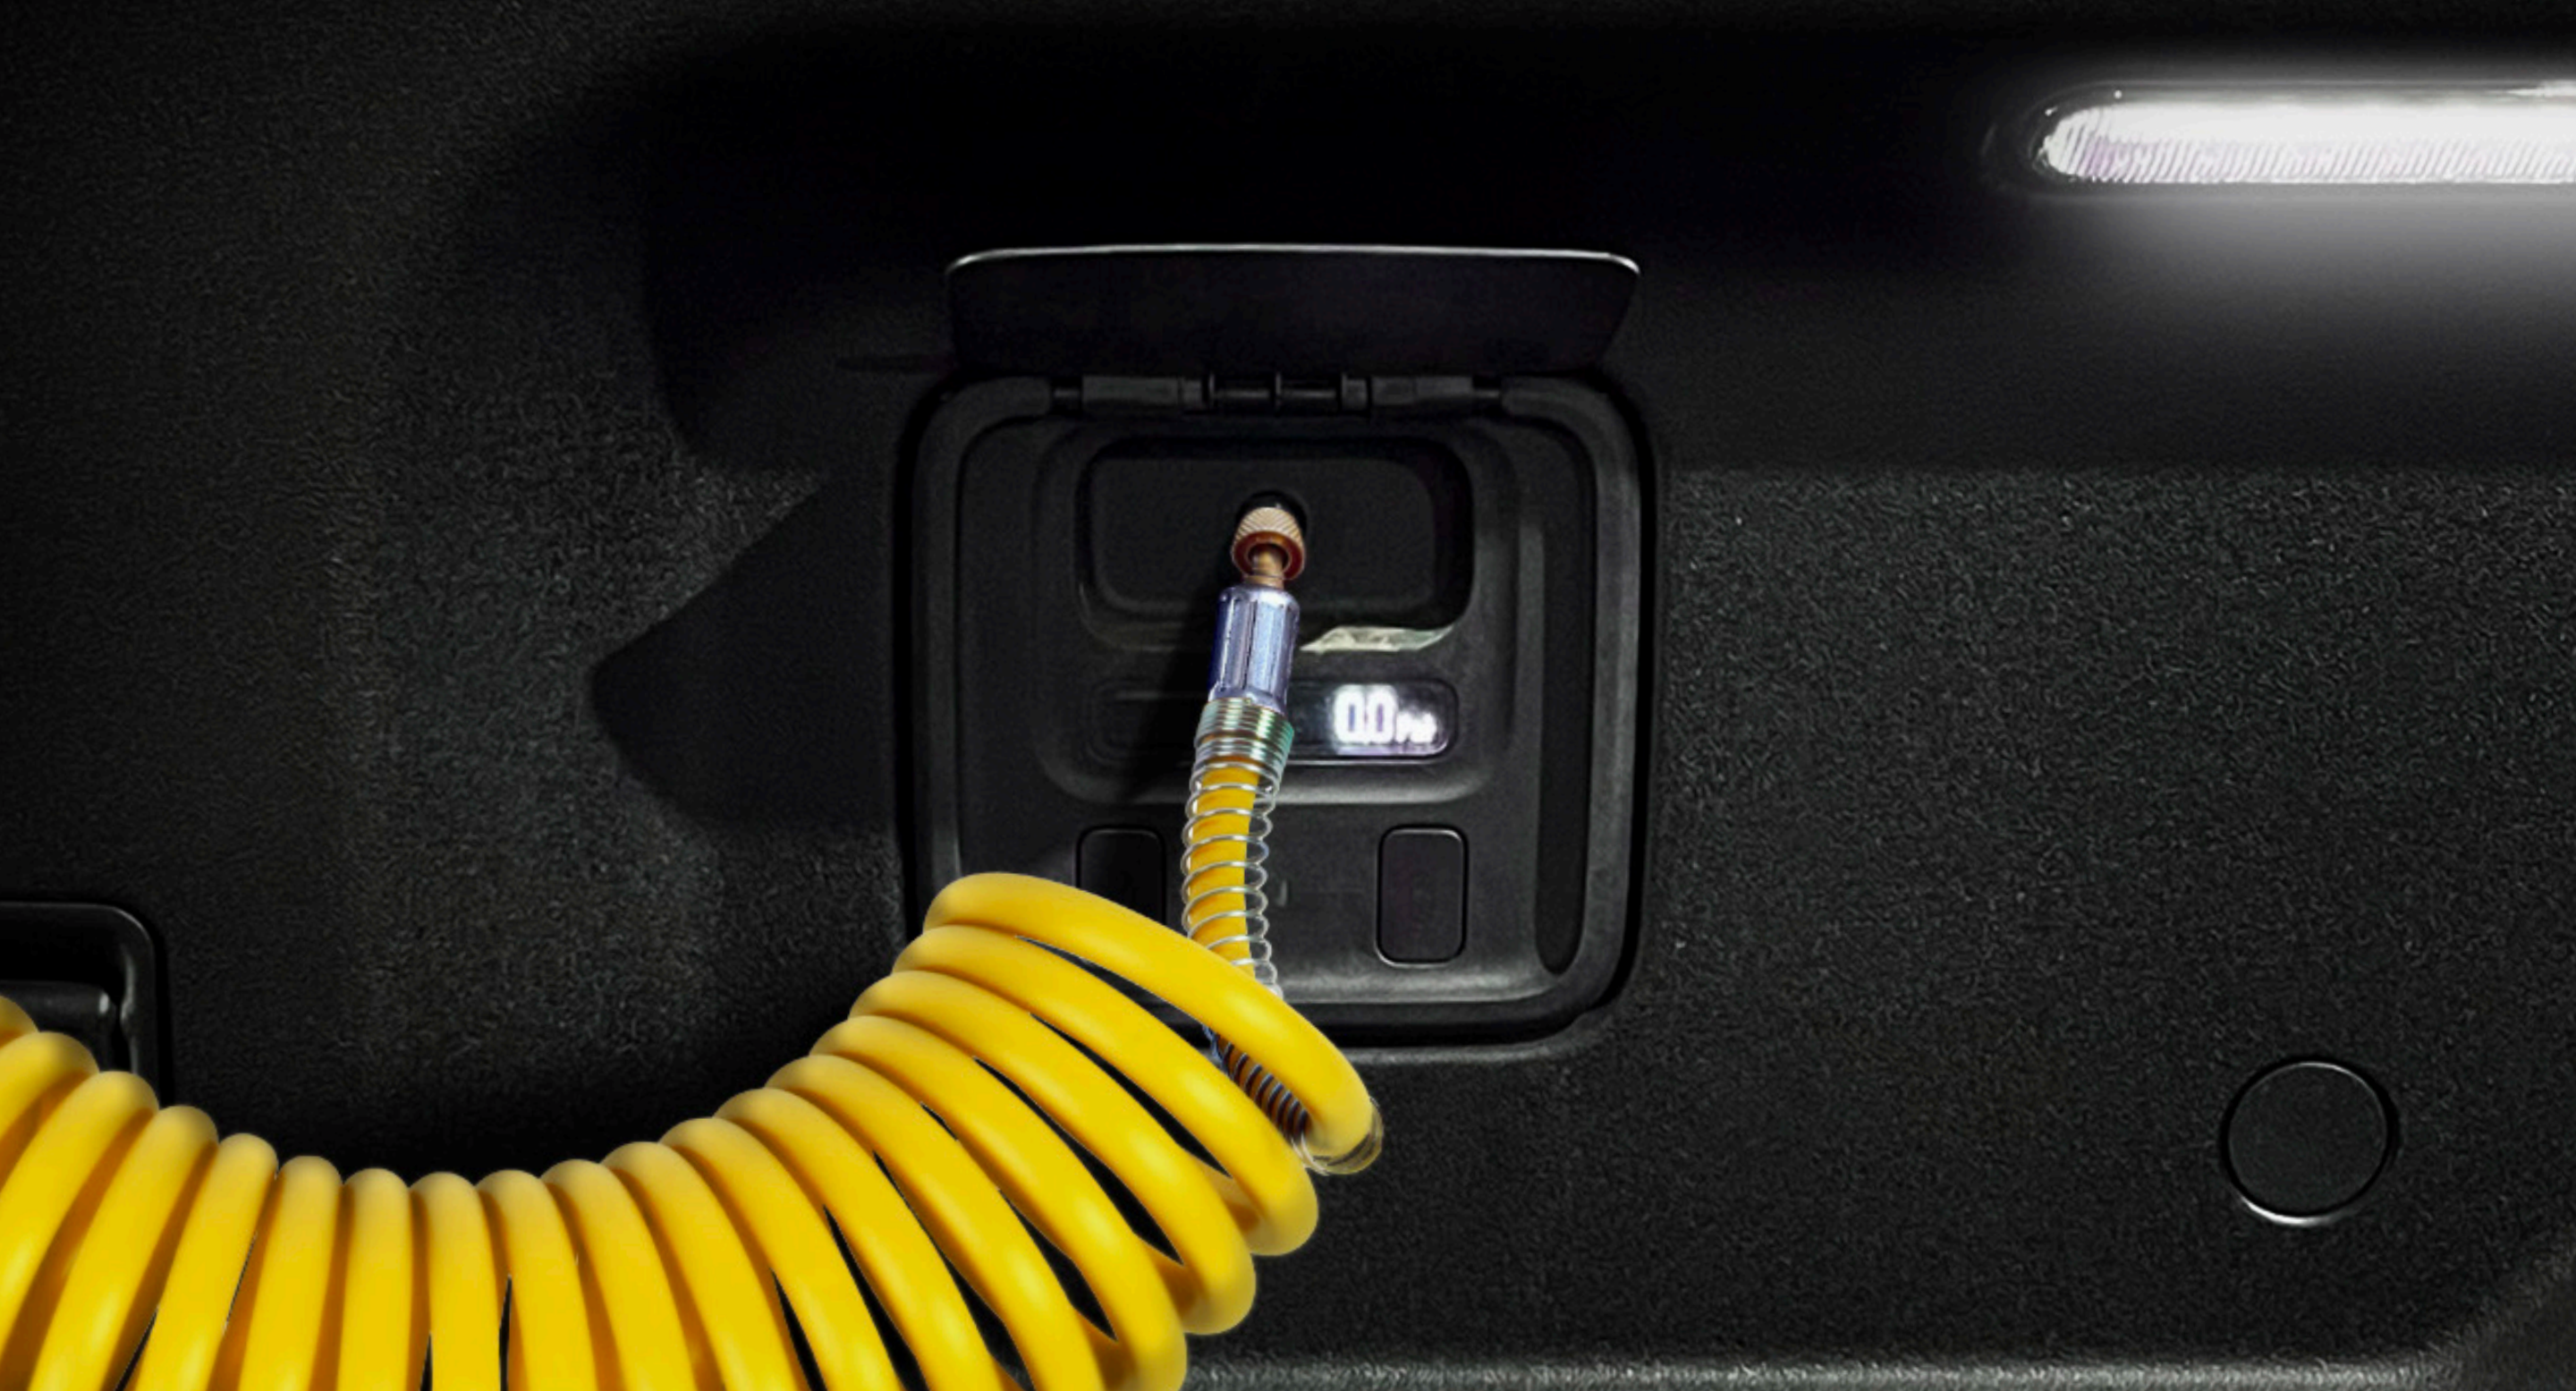

MEVCO

The **articulated tail gate** allows for very easy loading with a built-in flap to avoid items getting caught between the tailgate and bed.

3

MEVCO

The **built-in air compressor** comes with a 20"/508mm hose that extends to all four wheels, a quick-connect nozzle and adapters for light inflation duties.

4

MEVCO

The Rivian boasts a **reinforced underbody shield** and a flat underside with Kevlar battery protection. This setup ensures durability and safety when off-road.

5

MEVCO

On-Road	Drive Mode
	All-Purpose
	Snow
Off-Road	Drive Mode
	All-Terrain
	Soft Sand

MEVCO personalise drive modes to align with mine-specific conditions, improving efficiency and safety.

One size doesn't fit all.
**We tailor our mine-ready
vehicles to suit each
mine's needs.**
