POINT GUIDE

Tailored EV Service &
Support for Mining

MEVCO

“Our mission is to revolutionise the mining industry by making sustainable and efficient electric fleets easy to deploy and manage, ensuring the safety and well-being of workers and the environment.”

Matt Cahir

CEO and Executive Director
MEVCO

MEVCO

5 point guide for tailored EV service and support for mining

At MEVCO we work closely with our customers to understand specific needs of each mine-site and tailor solutions to maximise productivity and performance.

We are committed to providing our customers with the smoothest experience possible when it comes to the implementation, enhanced performance and ongoing maintenance of their electric fleet.

Expert consultation and planning

We conduct site inspections and collaborate with customers to understand unique operational challenges and develop customised strategies for integrating BELVs* into a mine-site and existing fleets.

* Battery Electric Light Vehicles (BELVs)

1

MEVCO

Training and education

Comprehensive training programs are provided to ensure our customers' teams are proficient in operating and maintaining our advanced electric vehicles. This fosters confidence and competence, leading to improved performance.

2

MEVCO

Advanced technical support

Our dedicated support team is available 24/7 to address any technical issues, minimising downtime and ensuring continuous, efficient operation.

3

MEVCO

Proactive maintenance services

Regular maintenance schedules and real-time monitoring systems are in place to pre-emptively address potential issues, extending the life and performance of your vehicles.

4

MEVCO

Sustainability and efficiency monitoring

We provide ongoing analysis and reporting on the environmental and operational impact of our BELVs*, helping you achieve and maintain sustainability goals.
